Special Rules and Penalties

- A valid strike on a stick is: EITHER one where the pilot or any part of the Paramotor has been clearly observed to touch it. OR when electronic 'kick stick' sensors which have been shown to meet the standard tests are used, a valid strike is one which is recorded by the device.
- The clock starts the moment the pilot kicks the first stick and stops the moment he kicks the second stick.
- The pilot may have 3 attempts at kicking each stick.
- If the pilot relaunched the wing before being shown a green flag by the marshal they will incur 100% penalty for the task.
- If a launch fails the pilot may make as many attempts as they need to relaunch the wing within the specified time limit.
- The maximum time allowed for a pilot to complete the course is 3 minutes.
